

## Important Information

### NWEA Testing

NWEA testing began on Monday for elementary students and will begin next week for secondary students. You will be receiving more information from your child’s teacher if you haven’t already. This is an important test that we administer three times a year to find out what students already know and what they are ready to learn. Teachers are able to access detailed reports on what skills and standards are needed for your student to be successful. Students will need to test in an area free from distractions. They should get a good night’s sleep the night before and have a good healthy breakfast. **Please do not help your student with the test.** We need to get accurate information in order to make sure your student receives the proper instruction in class. It is not a test that they pass or fail and it will not and will not affect their grade. The test adapts to your student and increases in difficulty. Students that have previously taken this test want to increase their score as part of a personal goal.

For more information about this test, see the link below.

<https://www.nwea.org/the-map-suite/family-toolkit/Resources>

Students can take a short practice test to get an idea of what the test will look like at:
